AMERICAN REPUBLICAN NOMINATION.

FOR MAYOR,
WILLIAM J. SWINBURNE.

Mr. EMERSON'S lecture on Thursday evening was well attended and well received.

His subject "Works and Days" a name taken from a very old Greek poem by Hesiod, furnished the occasion for a discourse upon the present furiously working age, and the real value of time.

The lecture had in it the true Emersonian ring. What an atmosphere this man makes for his audience! How we pass into another world when we hear him!

Here is the true trance state and a vision of things supernatural.

The great excellence, the stupendous grandeur of Mr. Emerson's discourse is in the fact that it is fresh, new, living; it is a revelation. Its least sentence turns the thought on everlasting verities, because it comes from a live soul.

Very great is the privilege of hearing this man. We are glad so many in Newport listened to him. The town that can furnish an audience of two hundred souls ready to hear this transcendentalist, deserves a Railroad and an Atheneum, and an honest Mayor and well paved streets and new Churches.

A most inhuman outrage was committed in Richmond, Indiana, on last Thursday. The mother of a little girl about 12 years of age, sent her distance of about 1-1/2 miles for milk. In the evening the freight train on the Richmond and Hamilton road ran over her body, which upon examination, proved to have been most foully outraged. Two men, who were observed to follow her, have been arrested. It is supposed that they outraged her and then killed her, and placed her body on the track to escape detection.

At Philadelphia recently, arrangements had been made for the marriage of a young lady of a most respectable family. The event was to have been consummated on Wednesday last, and all the necessary arrangements were completed, when the lady was suddenly attacked by illness, died on Sunday, and was buried the very day which was to have witnessed the solemnization of her nuptials. Her marriage garment, at her own request, formed the shroud.

A clerk in the store of W. H. Tilden, South Boston, has been in the habit of purloining from \$1 to \$10 a day on an average, from the till of his employer for the last three years. Mr. T. discharged two clerks on suspicion, but the depredations continuing, he finally set a trap and caught the rogue. The latter at once owned up. Strange to say, he had not squandered the money thus obtained, but had invested it, or most of it, in good security. He promptly returned the accumulation of his three years of crime to his master, who, before the discovery, was nearly in a failing condition, but is now rather unexpectedly placed in a situation to meet all engagements.

The above we glean from the Traveller.

A LIQUOR INCIDENT.—The Ellsworth American says: "We are informed that a person at Mill-bridge sold some spirit to a young lad, who became intoxicated in consequence. The lad's sister informed the seller that if he did so again, she would spill his rum for him. He sold liquor the second time to the lad; and the sister, as good as her word, attacked the man's rum cask and stove in the head, spilling the contents thereof. We learn that the neighbors have subscribed \$13 to purchase some silver spoons, on which they propose to have engraved a cask with the head stove."

TAKE CARE OF YOUR DIVIDENDS.—A gentleman who yesterday drew a dividend of ninety-two dollars from the Mechanics' Bank, deposited it in his coat pocket, and placed his handkerchief above it. In drawing out his handkerchief as he passed along the streets, he threw the bills along the sidewalks wherever he went. After the discovery of his loss he succeeded in obtaining fifty-six dollars, and when last seen was in search of the remainder, and with some hope of success.—Worcester Trans.

THE MORMONS.—The question must soon be decided whether the will of Brigham Young shall rule a region of our country extending from the thirty-seventh to the fortieth degree of north latitude, and from the eastern base of the Sierra Nevada to the summits of the Rocky Mountains—a dominion more extensive than California, as healthy and well adapted to the physical development of the human race as any in the world—or the laws of the United States. We hope the national administration will decide this point very soon. The Mormon anomaly and abomination have endured long enough.—Boston Post.

RETRIBUTION.—The Auburn Advertiser says, a man residing in Moravia, somewhat distinguished for severity, and known as a rather hard man, in order to gratify his penchant for blood, braided a wire into the lash of his whip with which to cut his horses. His little boy brought the father again and again not to do it, but he was inexorable. He finished the cruel instrument, but at the very first stroke at his horses, he hit a buckle or some hard substance, breaking off a small fragment of the wire, which flew back and struck the eye of the cruel man, and put it out.

A wife full of truth, innocence and love, the prettiest flower that a man can wear next his heart.

The Boston Transcript, of Wednesday last contains the following just remarks upon the proposed Railroad between this city and Bristol. We are glad to see the matter thus brought before our Boston friends.

The writer below mentions some of the benefits sure to result to Boston by such a Road, others might be named as sure to follow. These we may bring forward at another time—

A NEW ROUTE TO AND FROM BOSTON, VIA NEWPORT.—Application has been made to the Rhode Island Legislature for an act incorporating the Newport and Bristol Railroad Company, which it is expected will be granted in May.

It is proposed to construct a road from Newport, along the western shore of Rhode Island, to Bristol Ferry, a distance of nearly 12 miles, which it is estimated can be built and equipped for \$275,000. A junction is contemplated with the Bristol and Providence Railroad, by a steam ferry boat at Bristol. From thence the route will be through Providence, and over the Providence and Bristol road—the whole distance from Bristol being about the same as that from Fall River to Boston.

This route, when completed, will afford additional facilities to the business of Providence and Boston; much needed, particularly in winter.

When the road is built there will no doubt be a line of steamers from New York, which will make Newport their terminus. In summer they will be preferred by visitors to Newport, as the inconvenience of being landed at Newport at 2 and 3 o'clock in the morning will be avoided, as well as the bustle and confusion of embarking in the evening, both of which are now considered by pleasure seeking travellers great annoyances.

It is well known that something is yet needed to enable Boston merchants more fully to compete with New York, in the sale of goods to customers from the southwest cities, who have heretofore complained that goods cannot be transported from Boston, in that direction, as readily as from New York, and therefore they do not buy as largely in Boston as they otherwise would do.

When the contemplated road is finished, by using the route via Newport, the great circuit around Cape Cod, with its dangers from storms, logs, and thick weather, would be avoided, and a great saving in time effected. This advantage would be felt in ordinary seasons, to a considerable extent, but in such a winter as the past, the difference would be still greater, as the Vineyard Sound has been obstructed by ice for several weeks together. The numerous losses by shipwreck on the shores of the Cape this year, proved the extent of the dangers of navigation around it.

It is not to be supposed that any great portion of the shipments to the Southwest would go over a railroad, but such goods only as might be needed in a hurry. A purchaser could point out such articles as were immediately wanted, and in five or six hours they could be on board a steamer, propeller, or other vessel, at Newport, ready to leave, when they would be about as far advanced on their way to the Delaware, Chesapeake, or other Southern port, as if on board the same description of vessel at New York city.

Newport being accessible at all times in winter, it often would be an object for vessels with cargoes for Boston, to stop at Newport; even a cargo of cotton could be landed there and sent over the road to Boston, and thereby make a saving. For instance, cotton could be shipped from New Orleans or Mobile at one-eighth of a cent less freight to Newport than to Boston, making 62 1/2 cents per bale; interest and insurance saved would be equal to one-half per cent, and often more, making at least one dollar per bale of those three items, which would pay the expense over the road to Boston. In addition to this there would be the saving of the vessel of her services for a month in winter and sometimes more, and often allow her to reach a port in the Gulf of Mexico by the time she could get away from Boston after circumnavigating the Cape, and be as far advanced on her way South as when sailing from Newport,—many vessels having been more than a month the past winter from the Vineyard into Boston.

In the case of fruit vessels from the Mediterranean, they could reach Newport much earlier and sooner than Boston, and it is well known that the first cargoes which arrive pay the greatest profit. They would in addition be in a situation to take advantage of the best market, either New York or Boston.

On the approach of winter, say in November, Boston propellers, which go around the Cape in summer, could change their route, and be used to better advantage in running from Newport to the Chesapeake and Delaware as long as they were open; and when they were closed by ice the propellers could then run to New York, either through the Sound or outside of Long Island, into Sandy Hook, and thereby keep employed at a season when other business would be impracticable, and at the same time form the only winter water route between Boston and New York, which could be used in the severest weather.

LATE OF GOV. SLADE'S SCHOOLMISTRESSES.—The society to provide female teachers for the West, of which ex-Governor Slade, of Vermont, is the head, reports that 452 teachers have been sent out—39 from Connecticut, 110 from Massachusetts, 115 from Vermont, 86 from New York. Of the 452 teachers sent out, 170 have returned, nearly all of them after teaching two years; 146 have married, 21 have died—9 of them after marriage.—N. Y. Post.

The Chinese news shows that China has at last been boarded into the family of nations, the Emperor having ordered peace to be made at any price. It is satisfactory to know that there is to be an end to the work of slaughter that has been going on there, and we hope that the Christian negotiators will behave—like Christians.—Boston Trans.

The authorities of Paris are about to place under each lantern at the street corners a clock dial, the hands of which are worked by an electrical wire, connecting with the principal clock, will tell the hour to the passer-by at all times of the night.

Seven dead bodies have been taken from the ruins of the fire in Baltimore. It is supposed that at least three more are dead. The loss of property is over \$400,000.

Latest News.

ST. LOUIS, April 17. FROM SANTA FE.—We are in receipt of advices from Santa Fe to the 17th ult. The Democratic Convention had nominated for Governor, James L. Collins. Mr. Otero, late delegate to Congress, had been re-elected.

Considerable excitement had been occasioned in Santa Fe on account of the circumstances growing out of a collision between a Mexican, named Gruber, and a soldier. Gruber shot the soldier and then gave himself up, and was taken to jail. A party of troops thereupon entered the jail and fired about forty shots, killing Gruber and another prisoner and wounding two others. Some of the soldiers engaged in the proceeding had been identified, and were to be tried for the offence.

WASHINGTON, April 17. Mr. Sawyer this morning made a violent street attack on George P. Herriek, in consequence of the latter's communication in the New York Herald, commencing severely on Assistant Secretary Clayton, in connection with the payment of Mr. Thompson's Indian claim. Mr. Sawyer is a relative of Mr. Clayton.

Mr. Denver this morning entered on his duties as Commissioner of Indian Affairs. A special dispatch from New Orleans, dated 16th, says official advices have been received here to the effect that the Mexican Government has admitted that the contractors to open the Tehuantepec road there complied with the terms of the original contract, and that the official authorities have received the road.

BAITMORE, April 17. The jail at Hagerstown, Maryland, was entirely destroyed this evening by fire. The prisoners were all saved.

MOBILE, April 16. We have Havana dates to the 30th. An attempt had been made to assassinate W. Sidney Smith, the British Consul, on account of his exposure on certain slave transactions. The impression that there would be no war with Mexico was becoming more general.

NEW YORK, April 17. The steamer Empire City, for Havana, took out \$300,000 in specie, mostly in Spanish doubloons.

Advices from Hong Kong to 15th of Feb. state that 10,000 houses have been recently destroyed at and near Canton. The English continued fighting. Chinese junks, amounting to a total number of 1000, had again attempted to surprise the English forces, but had failed. Orders had been sent to the Mandarins to negotiate soon, as English steamers threatened the towns where they reside. Hostilities had only taken place at Canton.

At Hong Kong exchange was 4s. 8d. At Shanghai imports were rather lower. The total silk settlements amounted to 75,000 bales, of which 67,600 bales had left. Prices had advanced \$10: exchange 6s. 7d. At Foochow further advance had taken place in tea. The import market was dull.

The U. S. steamer San Jacinto and sloop Levant are still at Hong Kong. Purkin Gazettes the Jan. 6, report several successes gained over the rebels, and the retaking of some of the towns in the province of Hueph. The retirement of the rebels from some of their posts to reinforce their body at Nankin, where disorder still continued, is stated as the origin of these reported Imperial successes. Yu-Yan, a town about 30 miles from Ningpo, is said to have been taken by the insurgents, the head Mandarin killed, and about 300 imperial soldiers.

HONG KONG, Dec. 15.—(Correspondence of the London Times).—Since I wrote to you on the 30th ult., the occurrences have been unimportant. Allum's trial commenced on the 3d inst. and after an investigation which lasted five days he obtained a verdict by a majority of the jury of "not guilty."

The evidence is given at full length in the local papers. It was chiefly circumstantial, and although it did not prove sufficient to lead to a conviction, a strong feeling exists as to the guilt of the principal persons tried. The case was conducted on the part of the Crown by the Attorney General, the Hon. Mr. Antsey.

On the prisoners leaving the Court House they were reapprehended as suspicious characters under a late government notification, and Allum, I believe, is to be detained in the meantime.

THE LATE ACCIDENT ON THE FALL RIVER RAILROAD. The accident on this road on the 6th, appears after all to have been the result of malice, and not to have been caused by rails falling from a construction train, as was stated last week. In a conversation with the President of the road, the editor of the Monitor was informed that the rails were taken from whence they had previously laid by the workmen on the road, and designedly and maliciously placed across the track. He adds:

"We were further told that this is the third time obstructions have been placed upon the track within the distance of a half mile from where the accident on Monday occurred, and that the spot is admirably adapted for the carrying out of such villainous purposes as was contemplated at that time. It is near a short curve, where an accomplice, standing on the bank above, could see the approaching train at considerable distance, and thus, give the alarm to the man below, while he could not be seen by the engineer or conductor, hence it was a good spot for a fiend in human shape to attempt the destruction of life and property in order to appease his appetite for revenge, or something else. A thousand dollars reward has been offered for the detection of the scamp or scamps who attempted this wholesale destruction of life, and it is hoped that they may be discovered and made to suffer the penalty due so diabolical an act. The officers of the road are determined to spare no pains or expense in ferreting out the perpetrators of the outrage, and we are confident that the people living in the vicinity of the accident will co-operate with them in their endeavors in this direction."

AWFUL!—By a gentleman who has lately returned from one of the northern counties, in this state, we learn that an Indian named John E. Cake was recently baked and eaten by members of his tribe, in order to keep them from starvation! Suffering that compels human beings to acts like the above is too horrid for belief.—Racine, Wis., Journal.

POOR WIFE.—A raw looking fellow was before the Police Court this afternoon for beating his wife, a delicate, good looking woman, with a child about six months old in her arms, which she pressed to her bosom and looked into its unconscious face with such tenderness as only a mother can feel. She didn't want to testify against the man that had sworn to protect her—indeed she didn't. Wasn't he the father of her child, and it was only when he was angry that he ill-treated her, and couldn't the Judge let him off this time—perhaps he wouldn't do so again. Only give him a trial. Such were the pleadings of a wife and mother for an unworthy husband. The Judge's heart was touched, and with a sigh he ordered a fine of \$1 and bonds in \$200 to keep the peace for six months. A moment after and the mother was holding the baby up and urging her husband to kiss its tiny lips.—Boston Herald, 27th ult.

A GENTLE HINT.—The Rev. Jonathan French of South Andover, was to be supplied with wood by his parishioners, according to the terms of his settlement. Winter was coming on, and no wood had been furnished. Mr. French waited until the Governor's proclamation for Thanksgiving came, when, after reading it to his people, he said, with great apparent simplicity:—"My brethren, you perceive that His Excellency has appointed next Thursday as a day of Thanksgiving; and according to my custom, it is my intention to prepare two discourses for that occasion—provided I can write them without a fire!" The hint took, and on the next day all his winter's wood was in his wood yard.

BRIGHT AND COBLEN.—The London Times says of the defeat of Cobden: "Let the constituencies think, not upon what he has done since 1846, but upon the energy, the singleness of purpose, the zeal with which he fought the fight for food for many a long year, when that fight was no easy one. He is not a man to be cast aside like a chipped brick. Unless we much mistake the times, there is a little cloud upon the horizon—as yet no bigger than a man's hand, which denotes a time when this service may again be called into requisition. For two years we have opposed these two gentlemen in well nigh every act of their public lives, and yet we now most honestly say that we deeply regret to see erased from the roll-call the names of John Bright and Richard Cobden."

A "BANK OF A THOUSAND FLOWERS"—A COUNTERFEIT.—A person pretending to have been a partner with W. F. Ftridge in the above article is palming off a spurious preparation on the public. It is counterfeited unless the name of F. F. Fridge & Co. is written on the side, and W. F. F. Fridge & Co. printed on the front of the label. The genuine article is for sale by all respectable Druggists, who from down counterfeiters and impostors. WHITE TEETH, PERFUMED BREATH, AND BEAUTIFUL COMPLEXION can be acquired by using the "Balm of a Thousand Flowers." That lady or gentleman would remain under the curse of a disagreeable breath, when by using the Balm of a Thousand Flowers would render it sweet.

A CARD TO THE LADIES.

Dr. DOXCEY'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting, regulating, and removing all obstructions from whatever cause. All medical men know, as well as many others, that no female can enjoy good health, unless she is regular, and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive. Price \$1.00 per box. For sale by HAZARD & CASWELL, 12 Washington Square, and 137 Thames St. They will supply the trade at manufacturer's prices. Ladies, by enclosing \$1.00 to STURGES & CO., Box 24 Newport Post Office, can have the Pills sent (confidentially) by mail to any part of the city or country. 12-17

PERRY DAVIS' VEGETABLE PAIN KILLER, Still Triumphs—and, after a thorough trial by innumerable witnesses, it has proved itself to be "The Medicine of the Age."

Although there have been many medicinal preparations before the public since the first introduction of Perry Davis' Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world, as the best Family Medicine ever introduced.

The genuine Perry Davis' Pain Killer is now put in patent bottles, with the words "Perry Davis' Pain Killer" blown in the glass, and with two steel engraved labels on each bottle—one an excellent likeness of Perry Davis, the original inventor of the medicine, the other a steel engraved note of hand—none others can be relied upon as genuine. Price of bottles, 12 1/2 cents, 25c, 50c, \$1 respectively.

PERRY DAVIS & SON, Proprietors, No. 74 High Street, Providence, R. I. One word in regard to Perry Davis' Pain Killer. I have in my family for some two years, and take great pleasure in recommending it as a valuable medicine, that should be kept in every family. I have witnessed wonderful speedy cures by its use—recently, within the last week, I have known a very severe case of rheumatism soon relieved and promising a speedy cure, by this in my estimation, invaluable remedy.

ANOTHER TRIUMPH OF THE DEFENCE SALAMANDER.

NEW YORK, Nov. 14, 1886. DEAR SIR:—The Defence Safe, No. 5,778, purchased from you about eighteen months since, was in my house at Newport, R. I., which, with the furniture, was entirely destroyed by fire on the night of 9th of June last. The Safe, after being exposed to an intense heat for many hours, was covered on the 10th of June. Not having the necessary tools at hand to open it, the same has stood just as when recovered, until shipped to your address, Nov. 1st. When opened at your store this morning, I was greatly surprised, as were also others present, to find the contents, consisting of valuable silver plate, &c., in as perfect order as when placed therein. It is with pleasure I add my testimony to the merits of the Safes of your manufacture. Yours, Respectfully, MR. ROBT. M. PATRICK, 192 Pearl-st.

A New York paper says:—"A few Sundays ago, at one of our suburban churches, the choir sang a hymn, to a tune which comes in as follows:—My poor pol—my poor pol—my poor pol—luted heart. Another line received the following rendering:—'And in the pi—and in the pi—and in the pi—ous delights.' And still another was sung:—And take thy pi—and take thy pi—and take thy pi—grim home."

We like the anecdote of old John Leland. He wrote, according to custom of his day, a tri-cooked hat. A good brother took him to task for following such a fashion. The old man took off his tri-cock, and extending it to the reprover, simply remarked:—"Brother, if there is any more religion in your hat than in mine, I'll swap with you."

Better be out of the fashion than in debt.

AYER'S CHERRY PECTORAL.

FOR THE RAPID CURE OF Colds, Coughs, and Hoarseness.

BRENTFORD, Mass., 20th Dec., 1855. DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, and all the pulmonary troubles of a cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior merits for the treatment of these complaints. EDEN KNIGHT, M.D.

A. B. MORTLEY, Esq., of Utica, N.Y., writes: "I have used your Pectoral myself and in my family ever since you located it at New York. It is the best remedy for its purpose ever put out. With a bad cold I should expect to pay twenty-five dollars for a bottle that does not cure it, or take any other remedy."

Croup, Whooping Cough, Influenza.

BROOKLYN, N.Y., 1st Dec., 1855. DR. J. C. AYER: I have used your Cherry Pectoral in the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people. H. A. CONKLIN, M.D.

AMOS LEE, Esq., of Monterey, Cal., writes, 31st Jan., 1856: "I had a tedious influenza, which confined me in bed for six weeks; took many medicines without relief; finally tried your Pectoral, and the advice of our clergyman, and in a few days recovered. I have since used it in my family, and it has cured all the pulmonary troubles of a cold, and is a most valuable remedy for the treatment of these complaints. EDEN KNIGHT, M.D.

As a remedy for Croup, Whooping Cough, Influenza, and all the pulmonary troubles of a cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior merits for the treatment of these complaints. EDEN KNIGHT, M.D.

We would add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption. Probably no one remedy has ever been known which cures so many and such dangerous cases as this. Some no human aid can reach; but even to these the Cherry Pectoral affords relief and comfort.

Lamon House, New York City, March 5, 1856. DOCTOR AYER, Lowell: I feel it a duty and a pleasure to inform you what your Cherry Pectoral has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid was to be expected. She was confined to her bed, and unable to sit up, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We tried his kindness, as we do your skill, for she has recovered from her illness, and is now as strong as she used to be, and is free from her cough, and calls herself well. Yours with gratitude and regard, O. L. SHELLEY, of Shelburne.

consumption, do not despair till you have tried AYER'S Cherry Pectoral. It is a most valuable remedy for the treatment of these complaints. EDEN KNIGHT, M.D.

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they are unexcelled upon the system of all men. They are safe and pleasant to take, but powerful to cure. Their gentle properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the food humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the ordinary complaints of every body, but also the most dangerous diseases of the liver and bowels, the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which express belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent physicians and men of science have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

Agents below are pleased to furnish gratis and certify of their cures, of the following complaints: Constipation, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a full stomach, Nausea, Indigestion, Morbid Inaction of the bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcers, and Catarrhs of the bowels which require an evacuant medicine, Scrophulous or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Pimples, Eruptions, Itching, and all the various eruptions of the skin, and all the various complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other can give you complete relief in its intrinsic value or curative power. The sick who the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass. Price 25 Cts. per Box. Full Boxes for \$1.

LOTTERIES.—The Lotteries of Samuel Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a good opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filed in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are \$10; halves, \$5; quarters, \$2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mislead the buyer. Prizes vary from \$40 to \$50,000; every prize being drawn and paid of drawing forwarded to all purchasers.

A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans Delta, Mobile Register, Charleston Standard, Nashville Gazette, Atlanta Intelligencer, and New York Weekly Day Book. Write your address plainly, and direct S. SWAN & CO., ATLANTA, GEORGIA. Prizes paid in full—no percentage deducted from prizes as in other lotteries. All communications strictly confidential.

MEDICINES. THE GREATEST WONDER OF THE AGE.

A REMEDY WHICH CURES IN FIVE MINUTES.—M. LEROUX'S French Cholera Cognac Bitters. This truly wonderful scientific compound is recommended by the most eminent and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient and generally acknowledged remedy against cholera, dysentery, diarrhoea, and all the complaints of the stomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armies of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 75 per cent; in consideration of which, the inventor was presented with the French and English governments medals in general, bearing the inscription, "Hail! M. Leroux, the great chemist and inventor, by whose knowledge our armies are preserved from cholera."

This invaluable preparation is also a remedy for biliousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon eating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most successful success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its immediate and complete success, which he will be happy at any time to show to any that may wish to see them. S. STEINFELD, Sole Agents for the United States, 70 Nassau street, corner of John, N. Y.

P. S.—Those not able to pay, may call at my place from 3 to 6 p. m., and receive this remedy gratis. [219-47]

DR. GEO. PIERCE'S INDIAN RESTORATIVE BITTERS. A GREAT REMEDY FOR FEVERS, DYSPEPSIA, HEADACHE, BOWEL COMPLAINTS, PAIN IN THE STOMACH, COSTIVENESS, JAUNDICE, LIVER COMPLAINT AND ALL BILIOUS AFFECTIONS.

THIS MEDICINE, by the uniform testimony of a great number of intelligent and perfectly credible certificates, is proved to be THE BEST CATHARTIC that has yet been introduced to the public. It is active and powerful, but easy in its operation—a full dose operating in three or four hours, usually without any pain, and unlike other cathartics, it does not leave the bowels in a costive state.

Many persons suffer from JAUNDICE—many have an excess of BILIOUS ACTION in the SPRING of the YEAR—and are debilitated in consequence. For all this class of diseases this is A Sovereign Remedy. Price 40 cents. Sold by H. L. Young, wholesale and retail agent for Newport, cor of Parade and Thames street. [212]
